

Malta

Information on Malta:

Inhabitants = about 515 thousand
Capital = La Valette
President = George Vella
Surface area = 246 km²

Amazing activities of Malta:

Fungus Rock

After a ferry tour since Malta island, we get to the biggest island of the archipelago, Gozo island called « the little sister of Malta ».

Gozo island has retained its authentic and wild atmosphere with the medieval city of Victoria, its caves, its natural sites like Xlendi bay or the underwater site of « Blue Hole » to practice diving.

The site of « Blue Hole » is only accessible on luzzu, the traditional Maltese boat.

It is also in Gozo island that you can discover the natural site of Dwejra Bay, with its rock formations and its famous «Fungus Rock».

Troy movie

In the north-west of Malta, in Anchor bay, you can admire an unusual village with wooden and very colorful houses. The village of Popeye or « Sweetheaven Village » was turned into an amusement park. Discover filming shootings, for example « Troy », go on a boat ride, enjoy the beach or have fun in water inflatable games.
